To Whom It May Concern:

On behalf of the Management Board of the Bulgarian Forum for Interreligious Dialogue and Partnership, and as an educator myself, it is my *privilege* to highly recommend the Give Nation Compassion Program for extensive use in all types of schools.

The impressive scope of the curriculum is based on interactive teaching of universal human values that are crucially important in our time. Compassion in the sense of active understanding, capable altruism and wise care will empower the future generations to face all challenges and achieve lasting happiness.

Sincerely,

Nikolay N. Neshev. PhD

Chairman
